As Past President of the European Academy of Dermatology & Venereology (EADV), I would like to take this opportunity to extend with great pleasure my gratitude for all your company's rendered services during the 15<sup>th</sup> EADV Congress that took place from October 4-8, 2006 on the island of Rhodes.

Our events were attended by delegates from all over the world with different cultures, customs and habits. However, in all aspects, you and your team demonstrated your ability to adapt to these differences with discretion and patience.

Moreover, the excellent co-ordination of the scientific programme was proven both by the significantly high participation and by the fact that the invited speakers were utterly satisfied with the organization of the programme.

I would like to congratulate you once again on a successfully concluded EADV Congress and express my appreciation for the hospitality and professionalism displayed during all the preparation and implementation activities of this Congress.

Sincerely

Professor Dr. med. Dr. phil. Johannes Ring
