

**Subject:** first letter after congress

Dear Ms. Tsatsou,

I am back in town and want to write this first letter to you. I have commented on this several times during the conference, but I do not want to forget to tell you in writing.

Thank you very much for everything that you did for the IAAP congress. I appreciate it very much. I have received many compliments on the congress that I would like to forward to you – the organizing bureau, as well as the scientific and the organizing committees of the congress. This congress was a huge success. The program was excellent, people liked the opening ceremony and the reception afterwards. The organization of the congress was perceived to be smooth and the scientific program was excellent. The closing dinner on W was splendid. Most things worked very well.

I appreciate all your efforts.

Yours sincerely,  
Michael Frese
