

Subject: Congratulations

Dear 26 ICAP Organizers

Taking into account that I e-mailed to you in several opportunities regarding many different questions, I must say that I am delighted not only for your permanent kindness but also for your very efficient and congratulatory organization, both in scientific and in administrative subjects.

I use to attend several International Congress, and although most of them were very well organized, in this time I could observe an excellent organization beside kindness and patience with worried participants like me, coming from very far countries.

Again, Congratulations!

Thank you in advance.

My best wishes,

Hugo Klappenbach

Dr. Hugo Klappenbach
