Dear Ms Tsatsou,

Re: Postgraduate Course of the European Society for Pediatric Neurosurgery, 8th Cycle, 1st Year, Corfu, Greece 20-24 April 2009

On behalf of the European Society for Pediatric Neurosurgery I would like to thank you for the excellent organisation of the above international conference. All aspects of the Course run very smoothly from the organisation point of view. There were no problems whatsoever. In particular, the hands-on workshop was very well organised, despite the practical difficulties of organising a hands-on drill workshop in a hotel conference room. All the participants, teachers and students, gave me very favourable feedback and praised your staff, in particular Mr Spyros Lianos and Ms Niki Tsiamaki who were with us all week, for the excellent commitment and hard work they have put, to make the course a success. This is of particular importance, having in mind that the course took place the week after the Greek Easter, a difficult time for international travelling in Greece.

I hope we will be able to collaborate in the future in other scientific meetings of the Society.

Yours sincerely,

S. Sgouros, MD, FRCS(SN)
Ass. Professor of Neurosurgery
Head of Department
Course Organiser
Treasurer of the European Society for Peridatric Neurosurgery
