Dear Mrs. Tsatsou,

On behalf of the Council of the Hellenic Society of Animal Science (HSAS) I would like to thank personally yourself and your staff for the excellent cooperation we had during the preparation and carrying out the 61st Annual Meeting of the European Association for Animal Production (EAAP) in Crete.

We were really, all of us, impressed by the experienced, professional, responsible and efficient way you handled all the issues concerned the meeting, which was finally a success and very enjoyable by the participants. In particular, I would like to congratulate and thank Mr. Nikos Dargonakis for his excellent job all the way of the Meeting.

I am more than certain that in the near future we could cooperate again, since the HSAS intends to have more such international meetings with other national and /or international scientific organizations.

Looking forward to cooperate successfully again in the future.

With best wishes,

Prof. George Zervas

President of the HSAS
